

# Timeline of information flow between Member, Nottinghamshire Fire & Rescue Service (NFRS) and West Yorkshire Pension Fund (WYPF).

Please note NFRS or WYPF **can not** provide any financial support or advice regarding the paperwork sent, if unsure please seek independent financial advice.

Member will review information and once necessary paperwork is signed return to the following email addresses:  
**[Matthews@wypf.org.uk](mailto:Matthews@wypf.org.uk)** – to create payment notification.  
**[pensionqueries@notts-fire.gov.uk](mailto:pensionqueries@notts-fire.gov.uk)** – for your pension payment records.

NFRS will pass on information to WYPF within 14 days. This will take WYPF **a minimum of three months** to complete their calculations before sending back to the member.

**Note** - Interest rates are determined by Bank of England between 3rd - 7th of each month when interest rates are issued, this can cause delays in processing. Please be aware that this is a time-consuming process which all parties must remain patient, we are all working tirelessly to get payments to members as quickly as possible. There is a limited number of pensions and/or payroll administrators to complete this process quicker due to an industry shortage of experts nationally.
